## Chairing Virtual Meetings

*We were thrust into a world of virtual meetings in 2020 and they have become the norm for many of our network meetings, saving hours of time in travel.*

*What have we learnt about chairing meetings on Teams and what top tips can we share? Join us for this interactive session whether you occasionally or regularly chair on-line calls; or if you are keen to get started.*

**Presented by Malcolm Nudd and Amanda Price**  
**On Wednesday 28th September 12-1pm**

**Target audience: open to all staff, managers and leads encouraged to attend.**

**Please note: this session will be recorded.**
